

SALT CREEK SEAWALL TRANSPORTATION & ENVIRONMENTAL ENGINEERING

PROJECT DESCRIPTION

As the Dixie County Engineer, NFPS was tasked with assisting the County in finding funding to construct a seawall between the Salt Creek Canal and CR 349 in the Town of Suwannee. NFPS staff worked diligently to find a funding source and coordinated with the USDA NRCS regional office to procure an Emergency Watershed Protection Grant of \$1.1 million, but was anticipated to cost \$1.15 million. The project was funded on an “emergency need” basis and was given a 220 day time limit. Thus, NFPS had to expedite the engineering design, permitting, and construction bidding processes to maintain the rigid schedule. NFPS worked with the Natural Resources Conservation Service (NRCS) staff and the County Manager to progress through the project and maintain all federal grant reporting and financial procedures.

TOTAL CONTRACT FUNDING

The total for this project was approximately:

\$1,100,000

PERFORMANCE PERIOD

220 Calendar Days

DAYS 1-30

- CONTRACT SIGNING
- MOBILIZATION
- MAINTENANCE OF TRAFFIC

DAYS 31-90

- SURVEY
- PLANS PREPARATION
- BARRIER STABILIZATION

DAYS 91-120

- CLEARING
- CONSTRUCTION ACTIVITIES

DAYS 121-220

- FINAL CONSTRUCTION
- LANDSCAPING
- CLEAN UP

CLIENT REFERENCE

Dixie County BOCC
214 NE Hwy 351
Cross City FL 32628
