

TROPICAL STORM DEBBY FEMA RECONSTRUCTION GRANTS PROJECT

PROJECT DESCRIPTION

In June of 2012, the Town of White Springs had considerable damage as a result of flash flooding due to Tropical Storm Debby. NFPS assisted the Town with funding applications to the United State Department of Agriculture (USDA) Natrual Resources Conservation Service (NRCS) and Federal Emergency Managment Agency (FEMA) to pay for repairs to three (3) streets that were completely washed out. NFPS was able to secure funding to upgrade the culverts and replace the missing sections of roadway on First Street, Kendrick Street, and Jewett Street.

NFPS also provided engineering design, permitting, bidding and negotiations, Construction Engineering Inspection, and construction management for the Emergency Repair and Hazard Mitigation Project (HMGP). Because of the funding from NRCS, there was an expedited timeline for this project.

TOTAL CONTRACT FUNDING

The total contract amount for this FEMA and USDA NRCS funded project was approximately:

\$400,000

PERFORMANCE PERIOD

210 Calendar Days

DAYS 1-30

- MOBILIZATION
- MAINTENANCE OF TRAFFIC
- SEDIMENT BARRIER
