80TH TERRACE & 139TH DRIVE PAVING TRANSPORTATION ENGINEERING

After

PROJECT DESCRIPTION

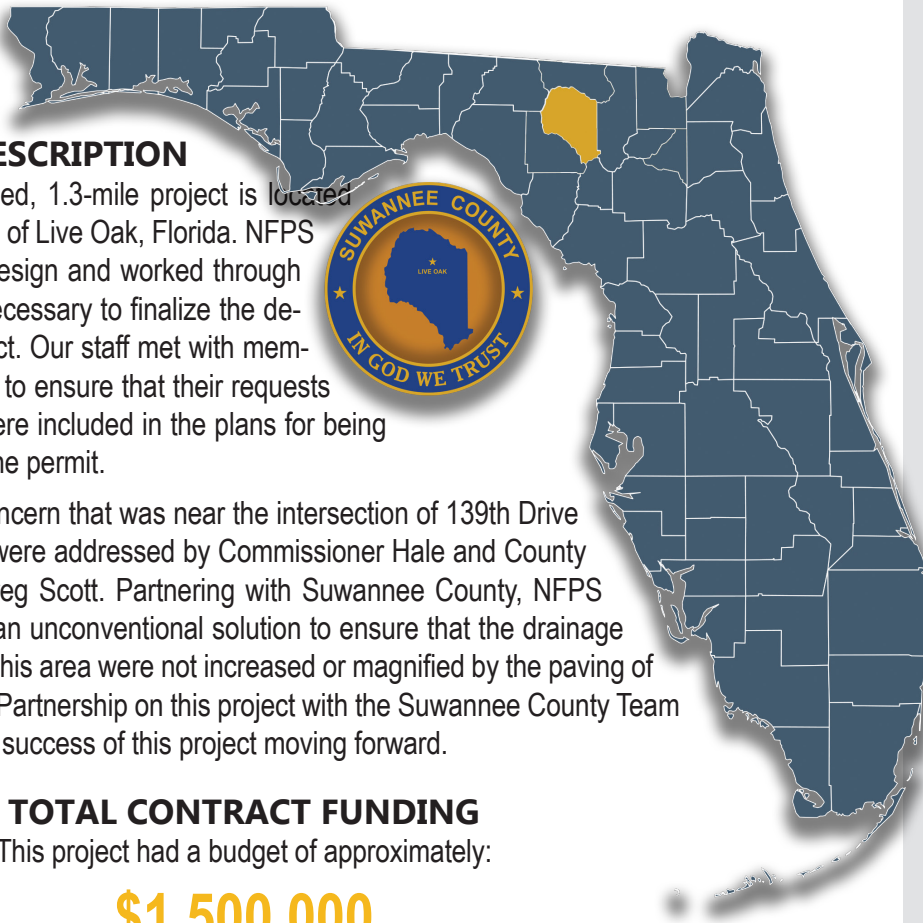

This SCOP-funded, 1.3-mile project is located on the West side of Live Oak, Florida. NFPS developed the design and worked through the permitting necessary to finalize the design of the project. Our staff met with members of SRWMD to ensure that their requests and concerns were included in the plans for being able to receive the permit.

The drainage concern that was near the intersection of 139th Drive and 80th Place were addressed by Commissioner Hale and County Administrator Greg Scott. Partnering with Suwannee County, NFPS staff developed an unconventional solution to ensure that the drainage concerns within this area were not increased or magnified by the paving of 80th Place. The Partnership on this project with the Suwannee County Team was a key to the success of this project moving forward.

TOTAL CONTRACT FUNDING

This project had a budget of approximately:

\$1,500,000

CLIENT REFERENCE

Suwannee County BOCC
13150 80th Terrace
Live Oak FL 32060
