

SOUTH COLUMBIA COUNTY UTILITY MASTER PLAN

MASTER PLANNING STUDY

PROJECT DESCRIPTION

NFPS developed the Potable Water and Wastewater Utility Master Plans for the expansive south region in Columbia County addressing short-range, mid-range and long-range 20-year infrastructure needs considering population growth, commercial development, reliability, and system connectivity.

NFPS provided planning alternatives, capital improvement project schedules with cost estimates, financial analysis, along with overall project management, and QC of the technical report development and publication. We researched the development of population and growth projections, infrastructure assessment, hydraulic modeling, and future growth planning; and provided the Utility Planning and Geographic Information Systems (GIS).

TOTAL CONTRACT FUNDING

(approximately)

\$230,000

CLIENT REFERENCE

Columbia County BOCC
135 NE Hernando Ave, #203
Lake City FL 32056

David Kraus, County Manager
386-758-1005

PROJECT MANAGER

Brian Roche, PE
4168 Southpoint Pkwy, Suite 202
